

CATALOG

ENGLISH

Dear readers,

You are now holding the latest VERMOP product catalogue in your hands – 267 pages filled with innovations, further developments and tried and tested solutions around your cleaning process.

But the main topic of this catalogue is not our products – it's you! After all, everything we do is centred around your requirements and your commercial success.

This is why all VERMOP solutions are developed in close collaboration with our customers. Your feedback and requests are often the key factors.

And that is exactly how one of our latest innovations came into existence – and it has the potential to revolutionise cleaning and building management: System ONE, the world's first interlinked system solution for professional cleaning.

What is behind it? System ONE interlinks cleaning tools, vacuum cleaners and floor mopping systems with the Equipe Digital cleaning trolley and a web portal. This enables you to see real time cleaning processes for the first time - and optimise them. (on page 12)

This gives you the opportunity to make use of digitalisation for on site cleaning for the first time.

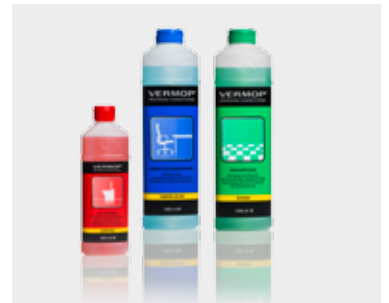

We have also listened closely to your analog cleaning needs. One of the results: a completely revised and in many aspects optimised Equipe cleaning trolley. (on page 24).

Our suggestion: simply find out yourself how our products and solutions are consistently aligned to your requests and requirements!

Have fun discovering!

Yours, Dirk Salmon

EVEN THE BEST OF THINGS CAN BE IMPROVED

OUR QUALITY STANDARD

Functionality, robustness, longevity. Our solutions have to prove themselves every day in professional use – and thus fulfil the very highest of standards.

This is why we test all products and systems extensively for practical suitability and carrying capacity. In doing so, we always scrutinise the status quo – and continuously develop our entire range even further.

Many of our customers benefit from this enthusiasm for quality, not only regarding our products: As part of our process consulting, we support you with reaching the highest quality standards in all stages of the process chain effectively and efficiently.

- Own research and development centre in Gilching near Munich
- Complete production „made in Germany“ (Wertheim near Frankfurt am Main)
- Fulfilment of strict criteria for production, environmental protection and health and safety
- Certification to ISO 9001 (quality management) and ISO 14001 (environmental management)
- 10 year guarantee for replacement parts

SIMPLY NEARER BY: OUR SERVICE

By your side in person all over Europe: our field sales team supports you on site at all times through competent and customer-orientated consulting.

More about our consultancy and service network on pages 10 and 11.

STRONG BY YOUR SIDE: OUR COMPANY

VERMOP is one of the leading international manufacturers of products, systems and solutions for professional cleaning.

The traditional family-run company is managed in the third generation and can look back on more than 90 years of experience.

The VERMOP headquarters are in Gilching near Munich.

RMOP®
CLEANING SYSTEMS

RMOP
CLEANING SYSTEMS

THINK AHEAD IN ORDER TO BRING OTHERS FORWARD

OUR POWER TO INNOVATE

With curiosity, fun and enthusiasm, we permanently search for new solutions for our customers.

Two claims push us forward in this: how can we fulfil the demand for ergonomic and intuitively useable working equipment even better? And how can we help our customers to differentiate themselves significantly from their competitors?

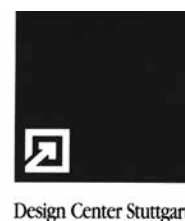

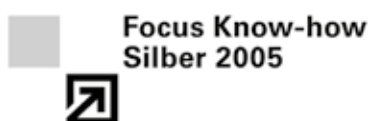

The result: VERMOP is the innovation leader and research motor in the field of professional cleaning.

The decisive factor: all innovation processes take place in close collaboration with our customers. Together, we put all new developments to intensive practical tests.

- Numerous national and international awards
- Permanent development work with a view to functionality, efficiency, reliability and ergonomics
- Innovative and aesthetic product design
- System ONE : the world's first intelligently interlinked system solution for professional cleaning

DESIGNING THE FUTURE TOGETHER

OUR CUSTOMER SUCCESS ORIENTATION

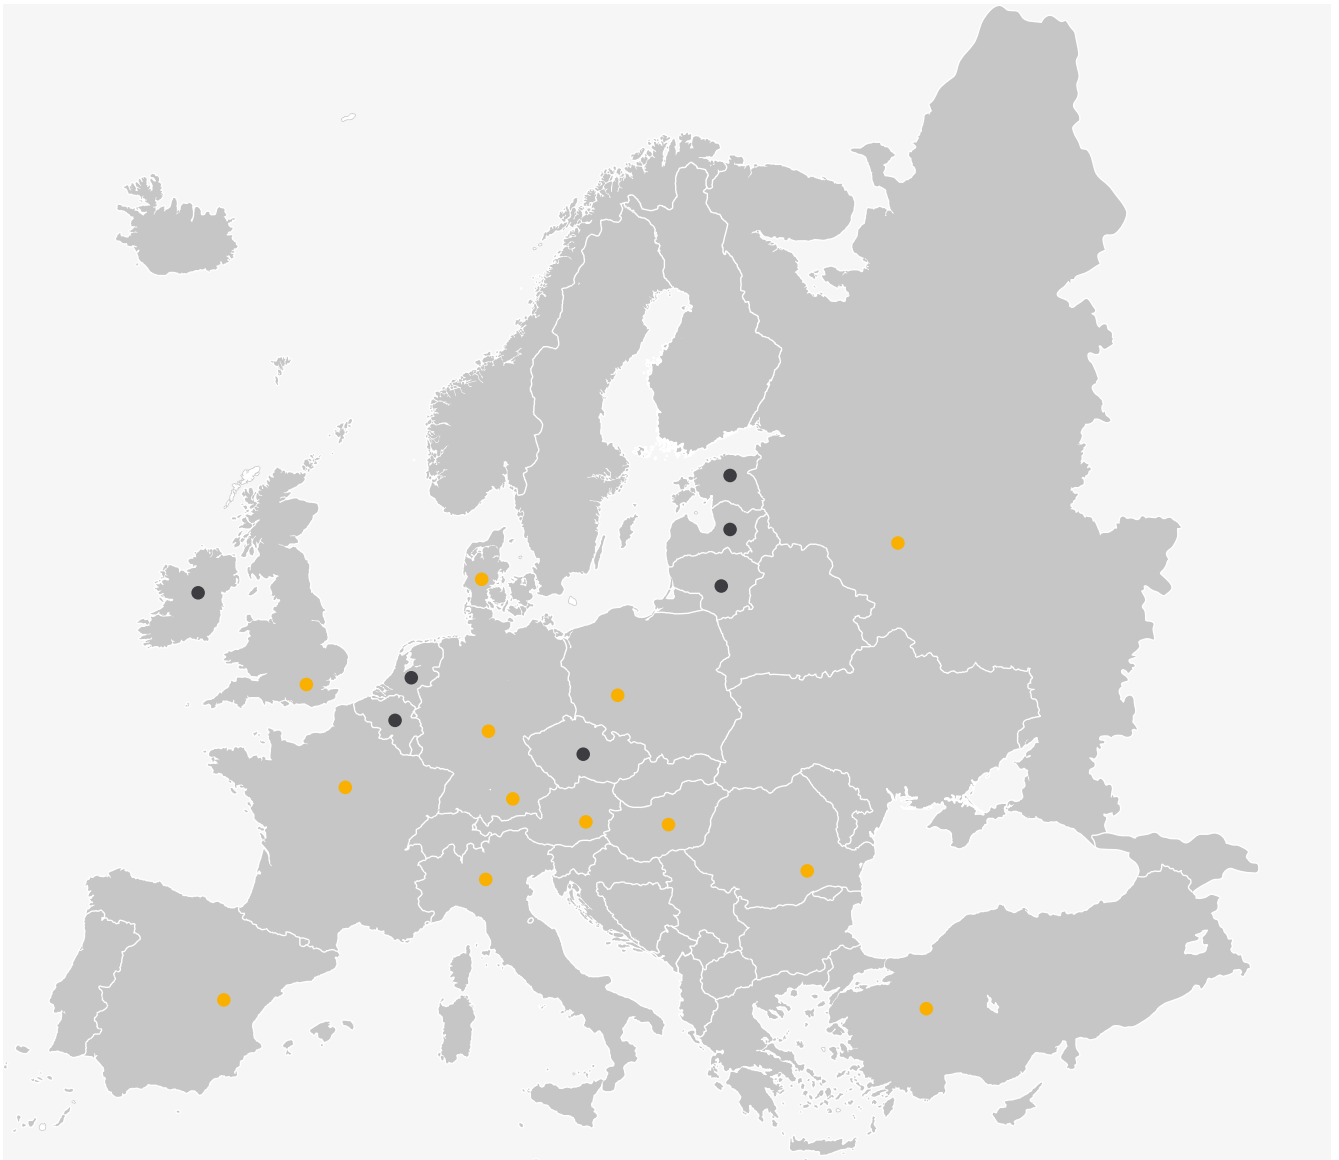

Continuously increasing cost pressures - same high quality standards: This is the stress field our customers operate in.

This is the reason why again and again, we see our most important task in opening up new potentials to increase efficiency for you.

The key criteria: flexibility and sustainability. That is why all our solutions are designed to fit together perfectly and interlock like cogwheels.

This optimum interaction increases profitability not only indirectly: our solutions can also be adapted to future circumstances quickly and cost effective.

- Products which are perfectly coordinated and compatible with one another
- Flexible and modular systems
- Scalable and thus sustainable solutions
- Use of high-quality and long-lasting materials (e.g. stainless steel or fibre-glass reinforced plastic)
- Individual consultation covering your entire value chain

System Ne

PREMISES CLEANING 4.0 – REAL TIME KEY PERFORMANCE INDICATORS

FROM NOW ON, YOU ARE ALWAYS UP TO DATE WITH WHAT IS
HAPPENING IN YOUR PREMISES

Digitalisation, interconnectedness, internet of things, Industry 4.0: the world is in the middle of a profound change and presently also reaching premises cleaning. VERMOP is now creating the breakthrough: System ONE is the world's first intelligently interlinked system solution for professional premises cleaning.

From now on, you are always up to date with what is happening in your premises!

We connect our cleaning tools with a digital module. This enables the equipment to transmit information about its cleaning activities. Our Equipe Digital cleaning trolley collects all data from your equipment and makes it accessible in a web portal. Likewise, the Equipe Digital itself gives information about where it has been. For the first time, this puts you in a position to compare planned times for an area with actual times. Through this comparison and long term data recording, actual key performance indicators will become visible to you.

This leads to great advantages:

- calculation of key performance indicators
- information about occupancy of premises
- calculation of covered
- continuous process improvement and
- process safety

Our System ONE comprises of interconnected cleaning tools which can be found in the VERMOP TOOLS and VERMOP POWER sections. Purposeful data recording, analysis and provision are done via VERMOP SOFT. With VERMOP CONSULTING, you have a contact partner who will help you to see you through your quality assurance process and is also in a position to carry out checks and controls in this regard.

YOU CAN OBTAIN FURTHER INFORMATION FROM OUR TEAM:

+ 49 9342 878 - 800

MONDAY TO THURSDAY: 8.00 AM – 6.00 PM

FRIDAY: 8.00 AM – 3.00 PM

PROCESS OPTIMISATION WITH SYSTEM

The components of System ONE are a holistic concept based on digital interconnectedness. Different performance components interlink like cogwheels. The objective is always to raise your cleaning processes to a completely new level of efficiency.

VERMOP SOFT: THE SOFTWARE BASIS FOR INTERLINKING YOUR CLEANING DEVICES

VERMOP Soft comprises of complementary software components. These all have the purpose to make your cleaning process more efficient than ever before.

- VERMOP maps** world innovation! Digital recording of buildings via 3D scanners
- VERMOP room** the modern, digital room book
- VERMOP time** the transparent cleaning process
- VERMOP ToDo** your digital cleaning plan

VERMOP TOOLS AND VERMOP POWER: THE DIGITALLY INTERCONNECTED CLEANING MACHINES

A digital module interlinks the VERMOP cleaning systems with the VERMOP Soft software suite. This puts you in a position to generate, analyse and document process data in real time.

- Equipe Digital** the data-collecting cleaning trolley
- Scandic X Digital** the interlinked telescopic bar
- Jetvac Digital** the interlinked vacuum cleaner

VERMOP LIQUID: CLEANING CHEMICALS FOR ALL REQUIREMENTS

Minimum use of product for maximum application variety: the VERMOP Liquid cleaning agents are the ideal supplement in a digitally optimised cleaning process.

VERMOP CONSULTING: PURPOSEFUL SYSTEM AND PROCESS CONSULTING

Our experts as the system provider are by your side with extensive know-how from performance delivery through to quality assurance. Make use of the market leader's competence to launch your digitally interconnected cleaning process smoothly and safely.

CLOUD

EQUIPE DIGITAL

DATA COLLECTORS ON WHEELS

At first glance a cleaning trolley, at second glance your on-site digital centre. With the help of a digital module, the Equipe Digital communicates with the Scandic X Digital und Jetvac Digital cleaning tools. In real time, they provide information about durations and locations of use. (In future, a number of other devices will be added here!)

The Equipe Digital stores the data in a highly secure Cloud. Access to this Cloud – and thus to your process data – is facilitated quickly and easily via our web portal.

You can see in real time whether an object is occupied, which activities have already been carried out and what still has to be done. You can log in as required via your desktop PC or flexibly and on the go via your Smartphone.

Further innovations at a glance:

- digital module for simple recording of cleaning data
- universal holder for disinfectant bottles according to Euro standard
- height-adjustable push-bar handle in a new design
- quiet and easy-to-clean wheels
- immersible 6-litre bucket - optimum storage
- door handle in attractive and functional design
- new disposal unit - can be removed with just one click
- waste management – as flexible as never before
- hinged disposal unit for reduction storage space in one move
- foot pedal for contact less working

YOU CAN OBTAIN FURTHER INFORMATION FROM OUR TEAM:

FRIDAY: 8.00 AM – 3.00 PM

VERMOP TOOLS

Economical, flexible, ergonomic, designed down to the smallest detail: VERMOP Tools are much more than just reliable tools for professional premises cleaning. Developed in close cooperation with our customers, they raise the effectiveness and efficiency of your processes to a new level.

For example the Equipe cleaning trolley: the compact and versatile cleaning headquarters on wheels can be custom designed to suit your specific requirements. Or VERMOP Scandic X: various different cleaning tasks can be undertaken using a single flexible system. Or the efficient Twixter double-sided mop system – for highly efficient wet and dry cleaning with only one mop.

Discover a number of further examples of how you can solve your cleaning tasks even more productively thanks to our innovations.

 TOOLS

CLEANING TROLLEYS

THE FUNCTIONAL TROLLEY

VERMOP cleaning trolleys offer numerous functions and advantages for daily use.

Simply configure your individual cleaning trolley and benefit from our high-quality range for everyday use.

EQUIPE

- The revolutionary space miracle, up to 50 % more loading capacity than conventional trolleys
- Maximum configuration flexibility
- Appearance to suit your needs – with or without covering panel
- High level of safety due to lockable elements
- Ergonomic due to height-adjustable functions
- All components are made of 100 % recyclable plastic

Combinable cleaning methods

Twixter-Press • F1 flat wringer • Vertical wringer VK 4 • Des tub • Pre-Wash • Dry cleaning • Spray method • Pour method

SHOPSTER

- Extremely compact cleaning trolley with the footprint of a double bucket trolley
- Maximum configuration flexibility
- Can be combined with all floor-cleaning methods
- High level of safety due to lockable elements
- All components are made of 100 % recyclable plastic

Combinable cleaning methods

Twix-Press • Vertical wringer VK 4 • Des tub • Pre-Wash • Dry cleaning • Spray method • Pour method

VARIANT

- The long-lasting classic trolley
- Chrome coated version, available with collapsible holding frame for space-saving storage
- Also available as high-quality stainless steel version

VARIETTA

- The small compact models: small trolleys, great variety

AQUVAVIZ

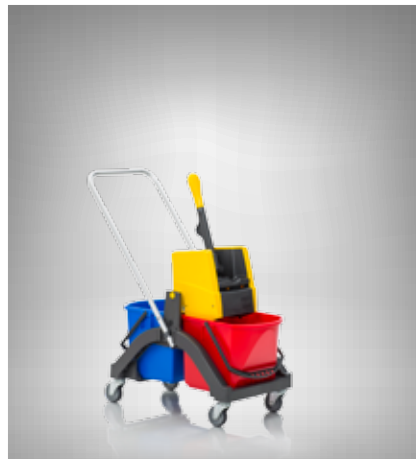

- Small and practical: Plastic base combined with slot-in stainless steel bars
- Economical and low cost
- Small dimensions for small cleaning units

MISTRAL

- Economical solution
- Compact and stable: Stainless steel and aluminum coated

WET MOP TROLLEYS

- Classic double trolley for cleaning in heavily soiled areas
- Small and manouverable: Plastic base with stainless steel handle

PAPER- AND DISPOSAL TROLLEY

- Long-lasting and sturdy
- For large quantities of waste
- Various versions available

 TOOLS

CLEANING TROLLEYS INDIVIDUAL

INDIVIDUAL DESIGN

In addition to a tidy appearance, the covering panels ensure greater safety when transporting cleaning materials. You design the Equipe to your taste and to suit the area of use. The covering panels can be freely combined with coloured door handles and shock protection. With your logo or your pictures on the covering panels you can give the Equipe an even more individual look. The VERMOP Design Team would be pleased to advise you.

 TOOLS
EQUIPE

CLEANING TROLLEYS

Equipe 2018 – the cleaning trolley which has been successful all over Europe is now even better! Benefit from the new functionalities and discover the modern premium design.

Equipe is always customised to exactly match your needs. The single modules are configured individually. From the modular kit system, you choose different sizes of base plates and combine them via plug & play.

The Equipe cleaning trolley is more than just a cleaning trolley – it is a rolling, ergonomic cleaning centre. The smooth surface construction and the drawer-shaped arrangement of the containers make optimum use of space. This means, you have everything at hand – unnecessary trips to get things is a thing of the past.

We would be pleased to support you in putting together the Equipe cleaning trolley best suited to your requirements.

Q AT A GLANCE

- **Modular cleaning trolley**
Maximum configuration flexibility
- **Highest loading capacity**
Up to 50 % greater loading capacity than conventional cleaning trolleys
- **Professional appearance**
Covering panels and integration of corporate design to customer requests
- **Height-adjustable functions**
Ergonomic use with simply and quickly adaptable functions
- **All floor cleaning systems**
Can be combined with all VERMOP floor cleaning systems
- **Colour coding**
Choice of colours for many parts
- **Equipe 2018**
New functions, modern design

- Premium premises
- Sanitary facilities
- Disposal
- Supply

SITE

Hospital / Nursing home • Large areas (Airport, Exhibition) • Office / Administration • School / Nursery

METHODS

Twixter-Press • F1 flat wringer • Vertical wringer • VK 4 • Des tub • Pre-Wash • Dry cleaning • Spray method • Pour method

Equipe Base I

Basic trolley for standard cleaning use. Extendable to accommodate a floor cleaning module and colour-coded surface buckets, it offers enough space for cleaning textiles and supplies.

Description	code
Equipe Base I	1663311

Dimensions: 83 x 57 x 109 cm (W x D x H)

Set includes:

Description	code
4x Wheel, 100 mm	16910
2x bar incl. screws	16215
6x crossbeam, anthracite	1652706
2x stabilizer flat, anthracite	1654206
6x cover flat, anthracite	1645406
2x box 5 l, anthracite	1646106
1x box 15 l, anthracite	1648006
1x shock protection plus set Equipe (4 pcs), yellow	1656505
1x base frame L, without wheels, without bars	1621098

Equipe Base II

The Equipe Base II trolley is designed for efficient wet cleaning of large floor areas. Combined with the Twixter floor cleaning system and the double-sided Twixter mop, this solution guarantees a time saving over conventional mop systems as well as greater surface coverage. The Twixter wringer makes it possible to wring out the cover without further hand contact and without removing the mop from the holder. At the softpoint, the cover is automatically wrung out by the wringer without pressure on the lever. While this is happening, other cleaning tasks can be carried out or the trolley moved to the next room. In addition, the trolley offers colour-coded buckets for surface cleaning, storage space for cleaning utensils and supplies and a disposal unit.

Description	code
Equipe Base II	1663312
Dimensions: 95 x 62 x 112 cm (W x D x H)	

Set includes:

Description	code
4x Wheel, 100 mm	16910

1x base frame L, without wheels, without bars	1621098
1x stabiliser with 6 hooks and 3 equipment holders, anthracite	1659406

Equipe Base III

Basic trolley for standard office cleaning applications. Alongside colour-coded surface buckets and an integrated disposal unit, it provides sufficient space for cleaning textiles and consumables. The particular segmenting and distinguishing of the frames by colours makes waste management flexible.

Description	code
Equipe Base III	1663313
Dimensions: 104 x 56 x 109 cm (W x D x H)	

Set includes:

Description	code
4x Wheel, 100 mm	16910
2x bar incl. screws	16215
4x crossbeam, anthracite	1652706
1x stabilizer flat, anthracite	1654206
3x cover flat, anthracite	1645406

1x folding frame 1x40 l, red	1639002
1x base frame L for foot pedal, without wheels, without bars	1621198
1x holding frame Plus F with push bar handle, yellow	162891205
1x stabiliser with 6 hooks and 3 equipment holders, anthracite	1659406
1x folding frame 1x70 l, blue	1638901

Equipe Base IV

The Equipe Base IV is a distinctly economical cleaning trolley - specifically using the pre-wash method - both for single-phased disinfection and also for general cleaning. The enclosed box system guarantees hygienic transport of the mop cover to the area of use and particularly efficient cleaning. The mops are prepared centrally and attached to the holder directly from the box at the area of use without having to bend down and without skin contact. This saves time. In addition, the trolley provides colour-coded buckets for surface cleaning, storage space for cleaning utensils and consumables and also a disposal unit.

Description	code
Equipe Base IV	1663314
Dimensions: 98 x 56 x 112 cm (W x D x H)	

Set includes:

Description	code
4x Wheel, 100 mm	16910
2x bar incl. screws	16215
3x crossbeam, anthracite	1652706
2x stabilizer flat, anthracite	1654206
3x cover flat, anthracite	1645406
2x box 5 l, anthracite	1646106
2x lid with sealing for boxes 5 / 15 / 35 l, transparent with coloured imprint, transparent	1648109
1x bucket 8 l, blue	1642801
1x bucket 8 l, red	1642802
1x bucket 8 l, yellow	1642805
3x box 15 l, anthracite	1648006
1x shock protection plus set Equipe (4 pcs), yellow	1656505
1x double driving handle with handle holder, yellow	1659605
1x base frame L, without wheels, without bars	1621098

Equipe Advanced I

Trolley for premises with high requirements in terms of cleaning and waste disposal. Expanded to include a floor cleaning module and colour-coded surface bucket, it offers everything for extensive cleaning and disposal tasks. The fold-away disposal unit allows simple space reduction for storage.

Description	code
Equipe Advanced I	1664311
Dimensions: 141 x 56 x 112 cm (W x D x H)	

Set includes:

Description	code
4x Wheel, 125 mm	16922
2x bar incl. screws	16215
6x crossbeam, anthracite	1652706
2x stabilizer flat, anthracite	1654206
5x cover flat, anthracite	1645406
2x box 5 l, anthracite	1646106
2x box 15 l, anthracite	1648006
1x shock protection plus set Equipe (4 pcs), yellow	1656505
1x Extension unit Plus KL F, 125 mm, yellow	162811205
1x Stabiliser short plus HR 2x40 l	16397
1x 1x40 l, yellow	1639005
1x folding frame 1x40 l, red	1639002
1x base frame L, without wheels, without bars	1621098
1x folding frame 1x70 l, blue	1638901

Equipe Advanced II

The Equipe Advanced II shows its strengths in premises with medium to high levels of soiling and heavy foot traffic. With the integrated Sprint floor cleaning system, it is the ideal cleaning trolley for wet cleaning using the two-bucket method. The VK 4 wringer allows the Sprint mop to be wrung out to the desired degree of moistening. At the maximum pressure point (softpoint), the cover is wrung out automatically without pressure on the lever. In addition, the trolley offers colour-coded buckets for surface cleaning and storage space for cleaning equipment and supplies. The additional mop rest, combined with the equipment holder, offers perfect storage for the handles and other utensils. The fold-away disposal unit allows simple space reduction for storage.

Description	code

Equipe Base Plus I

Basic trolley for high-security areas and premium premises. The trolley comes equipped with buckets for surface cleaning and panelling. Augmented with a floor cleaning module, it offers everything needed for comprehensive cleaning and disposal tasks. The disposal unit can be detached with one simple move. This makes transporting it to the disposal area much easier, removing the need to take along the complete trolley. A foot pedal facilitates no-contact disposal.

CLEANING TROLLEYS

 TOOLS

EQUIPE HOTEL

CLEANING TROLLEYS

The models of the Equipe Hotel trolley series distinguish themselves through their adaptability. High-quality materials not only ensure an exclusive look, but also guarantee the long service life of this Hotel trolley. In addition, they offer an outstanding spectrum of design and application possibilities according to the modular principle.

Q AT A GLANCE

- **Stay focused**

All the necessary equipment and materials are clearly organised and sorted

- **Highest loading capacity**

Optimum use is made of the volume of the cleaning trolley

- **Easier work**

The low weight of the Equipe hotel trolley and its castors on ball bearings make it easy to manoeuvre

- **Modular cleaning trolley**

Maximum configuration flexibility

- **Durability**

High-quality material and clever design make this trolley particularly durable

AREAS OF APPLICATION

- Disposal
- Supply
- General cleaning

SITE

Hotel

Equipe H1 Light Grey

With four shelves, the Equipe H1 offers lots of storage space. With the Light Grey covering panels, its visual appearance is that of one unit - professional and attractive. For simple manoeuvring, the waste unit features a practical height-adjustable driving handle and can also be covered with a panel.

Description	code

Equipe H3

The Equipe H3 is a basic model of the Equipe Hotel range. Enclosed with Light Grey covering panels on three sides, it has a 5l box and top shelf, ideal for storage. The trolley can be expanded at any time with extensions, in order to accommodate for example waste systems or, the Jetvac vacuum cleaner. The Equipe H3, like all Equipe Hotel trolleys, is extra high - with extremely generous storage space for linen or other room cleaning utensils.

 TOOLS
SHOPSTER
CLEANING TROLLEYS

The Shopster cleaning trolley offers the familiar VERMOP functionality in the smallest of spaces. Innovative and cleverly-designed right down to the last detail, it offers all functions of a conventional cleaning trolley with the footprint of a double trolley.

With the largest selection of floor cleaning systems on the market for this trolley category, combined with smart solutions for material transport and disposal the Shopster is unique.

With its closed tidy look, Shopster ensures your cleaning staff make a professional impression.

Q AT A GLANCE

- **Compact size**

Footprint same as that of double trolley

- **Modular cleaning trolley**

Maximum configuration flexibility

- **Manoeuvrable**

Practical and manoeuvrable

- **Secure storage**

Lockable compartments prevent unauthorised access

- **Colour coding**

Flexible colour selection in accordance with the colour coding system

AREAS OF APPLICATION

- Premium premises
- Sanitary facilities
- Stairs

SITE

Small areas (Shop, Doctors' surgeries)

METHODS

Twix-Press • Vertical wringer VK 4 • Des tub • Pre-Wash • Dry cleaning • Spray method • Pour method

Shopster Twix-Press

The Shopster Twix-Press with flat wringer effortless wringing of the mop without touching or removing it from the holder. The drawer boxes offer lots of storage space for clean mops. The bucket and pivot boxes provide room for cloths and materials.

Description	code
Shopster Twix-Press	17991

Dimensions: 73 x 70 x 95 cm (W x D x H) | Color option anthracite/yellow is standard. Other color options surcharge. Buckets 8 l and inserts for boxes, pivot joints are excluded from this.

Set includes:

Variant Twixter-Press (chrome coated)

For the efficient wet cleaning of large surfaces, the Variant Twixter wringer is equipped with the patented Twixter wringer, making this trolley ideal for general cleaning.

Delivery: Trolley not assembled

Description	code
Variant Twixter-Press (chrome coated)	11650UN
Dimensions: 145 x 60 x 110 cm (W x D x H)	

Set includes:

Description	code
1x base trolley III, wheels 100 mm, chrome-plated	10630
1x Twixter wringer, red	1871802
1x tub 20 l, blue	1872401
1x tub 20 l, red	1872302
2x holding frame for tray M, chrome-plated	10551
1x storage frame II incl. support wheel, fold away, wheel 75 mm	10505
1x holding frame 2 x 70 l, collapsible, chrome-plated	10507
1x unit for wet mop trolley Twixter / F1, chrome-plated	10504
3x tray M, blue	1875101
1x bucket 6 l, blue	1875601
1x bucket 6 l, red	1875602
1x bucket 6 l, yellow	1875605
1x equipment holder Twixter	15163

Variant Des 2000 / K (chrome coated)

Delivery: Trolley not assembled

Description	code
Variant Des 2000 / K (chrome coated)	10620UN
Dimensions: 125 x 77 x 110 cm (W x D x H)	

Set includes:

Description	code
1x base trolley II, wheels 100 mm, chrome-plated	10660
1x stick attachment, stainless steel	15541
2x holding frame for tray XL, chrome-plated	10559
1x storage frame II incl. support wheel, fold away, wheel 75 mm	10505
1x holding frame 2 x 70 l, collapsible, chrome-plated	10507
2x fixation for tub 45 l, chrome-plated	10528
1x dosing sieve	15551
1x disinfection tub, blue	1875801
2x tray XL, blue	1875201
1x bucket 6 l, blue	1875601
1x bucket 6 l, red	1875602
1x bucket 6 l, green	1875604
1x bucket 6 l, yellow	1875605

Variant 26 Ergo (chrome coated)

On the Variant 26 Ergo, the VK 4 wringer is attached in the best ergonomic position. The mop can be wrung out without bending, thus safeguarding the user's back. Ideal for wet mopping using the two-bucket method.

Delivery: Trolley not assembled

Description	code
Variant 26 Ergo (chrome coated)	10669UN
Dimensions: 125 x 75 x 122 cm (W x D x H)	

Set includes:

Description	code
1x base trolley II, wheels 100 mm, chrome-plated	10660
1x vertical wringer VK 4, red	1871402
1x holding frame 2x70 I, chrome-plated	10578
1x holding frame for 2 buckets 17 l, chrome-plated	10541
1x wringer holder II, chrome-plated	10547
1x grid II, chrome-plated	10588
2x wire basket III	10583
1x bucket 6 l, blue	1875601
1x bucket 6 l, red	1875602
1x bucket 17 l, blue	1875701
1x bucket 17 l, red	1875702
1x equipment holder double	1516377

Variant 27 (chrome coated)

The Variant 27 is ideal for daily general or industrial cleaning of large premises. The open construction makes all the equipment components easy to reach.

Delivery: Trolley not assembled

Description	code
Variant 27 (chrome coated)	10667UN
Dimensions: 125 x 68 x 110 cm (W x D x H)	

Set includes:

Description	code
1x base trolley II, wheels 100 mm, chrome-plated	10660
1x vertical wringer VK 4, red	1871402
1x stick attachment, stainless steel	15541
1x holding frame 2x70 I, chrome-plated	10578
2x holding frame for tray M, chrome-plated	10551
1x wringer holder, rigid, chrome-plated	10544
1x grid II, chrome-plated	10588
2x tray M, blue	1875101
1x bucket 6 l, blue	1875601
1x bucket 6 l, red	1875602
1x bucket 17 l, blue	1875701
1x bucket 17 l, red	1875702

Variant 23 (chrome coated)

The slim Variant 23 offers optimum disposal options for office cleaning, for example disposal of paper. In addition to this there is storage space for transporting accessories, e.g. vacuum cleaners and cleaning materials.

Delivery: Trolley not assembled

Description	code
Variant 23 (chrome coated)	10663UN

Dimensions: 96 x 52 x 105 cm (W x D x H)

Set includes:

Q AT A GLANCE

- **Compact dimensions**

Compact trolley suitable for stairs

- **Timelessly classic model**

Basic equipment for waste disposal and wet cleaning

TOOLS

VARIETTA

CLEANING TROLLEYS

The compact Varietta cleaning trolley is just the right solution for all areas of use where space is cramped. Its suitability for stairs and its compact size gives it a particularly large radius of action. The trolley is especially well suited to difficult terrain such as cinemas or lecture theatres. Compared to the basic fittings, the Varietta Plus 2 is chromed and has a wringer and two buckets for the hygienic separation of clean water and used water. The additional grid with supporting wheel below the disposal unit stabilises the trolley even when it is carrying large quantities of waste.

TOOLS

AQUVAVIZ

CLEANING TROLLEYS

The compact AquvaVIZ is a versatile and particularly practical system for general cleaning and waste disposal. Even more possibilities are opened up by the modular extension options – for example for supplies or for surface cleaning. The system proves its superiority particularly in small premises of up to 200 sqm and where space is tight.

SITE

Small areas (Shop, Doctors' surgeries)

METHODS

Vertical wringer VK 4 • Des tub • Pre-Wash • Dry cleaning

AquavaVIZ Press

Equipped with the VK 4 wringer, the AquavaVIZ Press is ideal for use for the one-step wet mopping method: The trolley is very stable and the wringer operation particularly ergonomic.

Description	code
AquavaVIZ Press	10350

Dimensions: 62 x 40 x 92 cm (W x D x H)

Set includes:

Description	code
1x double bucket cleaning trolley	10325
1x vertical wringer VK 4, yellow	1871405
1x grid AquavaVIZ, stainless steel	10720
1x adapter for steel bars (set)	10935
1x stainless steel structure with 1 x 70 l holding frame and 2 hooks, 2 holders for 6 l buckets at the sides	10725
1x frame for wringer press VK 4 AquavaVIZ, stainless steel	10723
1x equipment holder	18797
1x bucket 17 l, red	1875702

AquavaVIZ Moboxx

The Aquaviz Moboxx allows hygienic storage and transportation of prepared mops ready to be used on site. The 70 l holding frame can also be fitted with a waste sac, and the frame also offers two hooks for accessories and space, for two Tuboxxes for hygienic transportation of cloths.

Description	code
AquavaVIZ Moboxx	10370

Dimensions: 62 x 58 x 92 cm (W x D x H)

Set includes:

Description	code
1x double bucket cleaning trolley	10325
1x attachment for Moboxx, stainless steel	10721
1x adapter for steel bars (set)	10935

TOOLS

WET MOP TROLLEYS

CLEANING TROLLEYS

VERMOP offers an extensive professional range for wet cleaning of hard floors. Geared for practical application, the range facilitates quick, simple and economic wet cleaning – in premises of all conditions. Functional buckets, sturdy wringers and long-lasting, durable trolleys form the key components, which our customers have been appreciating for years.

SITE

METHODS

Twixter-Press • F1 flat wringer • Vertical wringer VK 4

wet mop trolley Twixter, stainless steel

With the unique Twixter concept featuring the double-sided Twixter mop, the surface coverage of the mop can be significantly increased. The Twixter wet mop trolley is made from a stainless steel. Two 20 l tubs ensure hygienic separation of used and clean water. The ergonomic Twixter wringer with lockable wringer lever facilities labour-saving mop wringing. As an optional extra, the drawbar of the Twixter II wet mop trolley can also be equipped with two 6 l buckets, for hygienic surface cleaning or for transporting cleaning materials.

Description	code

wet mop trolley F1, stainless steel

The F1 wet mop trolley with the flat wringer F1 is used in combination with the Sprint floor mopping system. The Sprint flat mops can be rinsed and wrung out directly on the holder, hygienically and in a time-saving way. Trolley and wringer are made of high-quality stainless steel. Two 20 l tubs ensure the hygienic separation of dirty water and fresh water.

Description	code
wet mop trolley F1, stainless steel	15070
Dimensions: 55 x 65 x 97 cm (W x D x H)	

Set includes:

1x tub 20 l, yellow	1872405
1x tub 20 l, anthracite	1872306
1x F1 flat wringer press, yellow	1867205

Garant wet mop trolley, 2 x 17 l, stainless steel

It is stainless steel which makes the Garant so solid and durable. With just one bucket and a VK 4 wringer, it takes up virtually no space when stored. Ideally suited for transport by car, for example to lock-up premises. For wet mopping using the 2-bucket method with the separation of clean and dirty water, the Garant is also available as a 2 x 17 l version with driving handle.

Description	code
Garant wet mop trolley, 2 x 17 l, stainless steel	10423
Dimensions: 74 x 41 x 88 cm (W x D x H)	

Set includes:

Description	code
1x base frame Garant 2 x 17 l, stainless steel	10419
1x vertical wringer VK 4, red	1871402
1x bucket 17 l, blue	1875701
1x bucket 17 l, red	1875702

Aquava wet mop trolley, 2 x 17 l

The Aquava wet cleaning trolleys with 75mm swivel castors easy to manoeuvre and made from high tensile plastic. The low weight construction and long service life are enhanced by the option of having two buckets and a driving handle or one bucket using the wringer handle to push the trolley.

Description	code
Aquava wet mop trolley, 2 x 17 l	1614392

Dimensions: 104 x 40 x 85 cm (W x D x H) | Base frame with 2 in-built connectors/stabilizers, man-made material.

Mistral wet mop trolley, 2 x 17 l, chrome coated

Description	code
Mistral wet mop trolley, 2 x 17 l, chrome coated	1044392

paper trolley X-Form

Thanks to its foldable construction, the high-gloss zinc-plated base frame of the X-form paper trolley with four 75 mm castors requires very little storage space. Expanded, it permits the attachment of one 120 l waste sac or 2 x 70 l, depending on the model. A grid provides stability when the sacs are full.

Description	code
paper trolley X-Form	1051022

Dimensions: 56 x 56 x 104 cm (W x D x H) | base trolley, 75 mm wheels, galvanized, polished finish, incl. holding frame 120 l

paper trolley X-Form

Description	code
paper trolley X-Form	1051017

Dimensions: 56 x 56 x 104 cm (W x D x H) | base trolley, 75 mm wheels, galvanized, polished finish, incl. holding frame 2 x 70 l

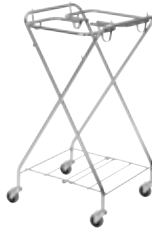

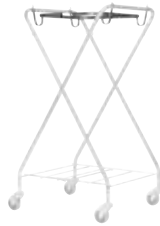

waste and transport trolley

With the waste and transport trolley, refuse or other materials (e.g. used mops) can be transported comfortably even over long distances. The two large 180 mm light castors ensure ease of movement - even over stairs and thresholds. The trolley can be equipped with two different holding frames for 1 x 120 l or 2 x 70 l waste sacs.

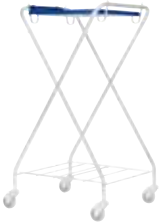

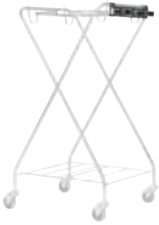

Description	code
waste and transport trolley	10516

Dimensions: 57 x 47 x 96 (W x D x H) | base trolley galvanized, incl. 2 wheels 185 mm without holding frame

 TOOLS

FLOOR CLEANING SYSTEMS

SYSTEMATIC SUCCES

Combine the different VERMOP mop qualities with our huge range of floor cleaning systems. For example, the double-sided Twixter system or the Scandic Velcro mop system for dry floor cleaning. All systems were developed together with our customers based on many years of practical experience. The holders and accessory parts are made of high-quality metals and plastics which stand up to the highest demands of the everyday cleaning business.

TWIXTER / TWIX

- Double-sided system for smart and economical 2-phase cleaning to meet the highest standards.

Combinable cleaning methods

Twixter-Press • Des tub • Pre-Wash • Dry cleaning • Spray method • Pour method

SPRINT

- Flat mop system, simple and convenient to use with large selection of mops and accessories.

Combinable cleaning methods

F1 flat wringer • Vertical wringer VK 4 • Des tub • Pre-Wash • Dosing sieve • Dry cleaning • Spray method • Pour method

SCANDIC DUO

- Double-sided Velcro mop system for dry floor cleaning with the most modern microfibre technology.

Combinable cleaning methods

Dry cleaning

SCANDIC MONO

- Single-sided Velcro mop system for wet, damp and dry floor cleaning on all surface areas.

SPRINT PLUS

- Flat mop system, simple and convenient to use with large selection of mops and accessories.

CLIPPER

- Proven alternative, tested time and again in everyday use, for cleaning heavily-soiled surfaces.

DAMP MOP

- Fast and effective dry and damp floor cleaning for large areas.

AQUVA

- Classic wet cleaning system for heavily-soiled premises with heavy traffic.

FLOOR CLEANING

TOOLS

MOP QUALITIES

QUALITY AND DIVERSITY

Choose exactly the right mop for your requirements from a diverse range. Depending on the area of use, floor covering, degree of soiling, cleaning chemicals and frequency of washing, it makes sense to combine various fibres to achieve an the best cleaning results.

TRONIC

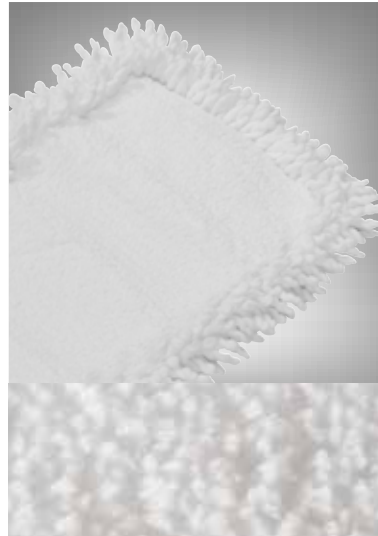

Application
Damp cleaning, wet cleaning

Material*
22 % Cotton
78 % Polyester /
Microfibre

Care instructions
95°C/200°F 

- High-end product made of high-quality materials
- Optimum dirt removal thanks to microfibre combined with good water absorption
- Removes hair very successfully
- All-rounder, suitable for different areas of use

WHITE MAGIC

Application
Damp cleaning, wet cleaning

Material*
100 % Polyester /
Microfibre

Care instructions
95°C/200°F 

- High-quality microfibre for very good dirt-carrying capacity
- Additional top sheet acting as moisture depot
- Wet and damp cleaning, particularly on structured floors
- Ideal for stoneware tiles

CERAN

Application
Dry cleaning

Material*
100 % Microfibre

Care instructions
95°C/200°F 

- Cleaning without raising dust due to electrostatic charge
- High level of dirt removal
- No bacterial contamination as used without water
- Dry floor cleaning, ideal for occasional or pre-cleaning of moisture-sensitive floors

*Relates to inner fringe, Sprint 40 cm

CLASSIC

Material*

65 % Polyester / 35 % Cotton

- Resistant to cleaning agents
- Good water absorption and gliding properties
- Ideally suited to general cleaning with high level of cleaning agent use
- Ideal for disinfectant cleaning

ANTIBAK

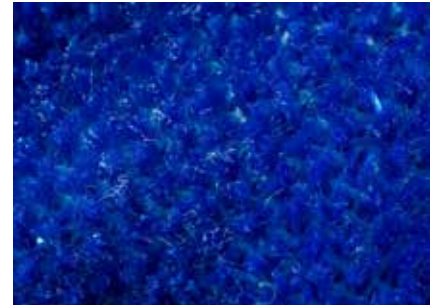

Material*

65 % Polyester / 35 % Cotton

- Special fibre treatment for antibacterial effect
- Prevents bacterial contamination
- Disinfectant cleaning, e.g. in hospitals, nursing homes

BLUE

Material*

100 % Brush material

- Abrasive material for optimum mechanical dirt removal
- Ideal in combination with White Magic
- Deeply structured stone floors, such as safety tiles in kitchens, sanitation facilities and bathrooms

BRUSH

Material*

35 % polyester
55 % polyester / microfibre
10 % polyamide

- Outstanding dirt loosening and removal
- Good gliding properties on safety tiles
- Bristle strips also clean grouting thoroughly
- Wet cleaning of heavily structured and rough floor covering
- High quality finish with additional top sheet

BASIC

Material*

50 % Cotton / 50 % Polyester

- Particularly good water absorption
- High level of dirt removal
- For damp and wet general cleaning

TRONIC LIGHT

Material*

20 % Cotton
80 % Polyester / Microfibre

- Particularly good water absorption
- For general cleaning

*Relates to inner fringe, Sprint 40 cm

BRUSH PROGRESSIVE

Material*

82 % polyester
18 % polyamide

- Good dirt removal
- Good gliding properties on safety tiles
- Bristle strips also clean grouting
- Good rinsing properties

PROGRESSIVE

Material*

100 % Microfibre

- Particularly good water absorption
- For general cleaning
- Available for the Sprint system speckled in red and blue

BASIC LIGHT

Material*

50 % Cotton
50 % Polyester

- Economical alternative to Basic
- Good water absorption
- Good dirt removal
- For damp and wet general cleaning

LAUNDRY RECOMMENDATIONS

Wash separately. This prevents the various fibre qualities damaging one another. Do not use a fabric softener!

TOOLS METHODS

THE RIGHT SOLUTION OF EVERY REQUIREMENT

Choose the right cleaning method depending on the premises, floor covering or degree of soiling. Wringers, Des tubs and pre-wash boxes are tailored to the individual VERMOP floor-cleaning systems and can be combined with a large number of the VERMOP cleaning trolleys.

In order to ensure that wringers, boxes and all other accessories can stand up to the rough and tumble of everyday cleaning, they are made of high-quality plastic and metals.

PRE-WASH

- Suitable for 1-phase wet cleaning
- Central preparation of the mop
- Saves water and cleaning chemicals
- No spreading of germs
- Ergonomic attachment straight from the box
- Simple handling
- No disposal of cleaning liquid necessary

Compatible floor cleaning systems

Twixter • Twix • Sprint • Scandic Mono 40 cm

Compatible cleaning trolley

Equipe • Shopster • Variant • AquavaVIZ

DES TUB

- Suitable for 2-phase wet and dry cleaning with Twixter / Twix
- Controlled moistening of one side of mop cover
- No contamination of cleaning solution
- No spreading of germs
- Simple handling

Compatible floor cleaning systems

Twixter 40 cm • Twix 30 cm • Sprint 40 cm • Scandic Mono 40 cm

Compatible cleaning trolley

Equipe • Shopster • Variant • AquavaVIZ

DOSING SIEVE

- Suitable for classic cover-change method
- Mop is soaked in cleaning solution
- The mop is rested on the dosing sieve to allow excess cleaning solution to run off
- No contamination of cleaning solution

Compatible floor cleaning systems

Sprint • Scandic Mono

Compatible cleaning trolley

Variant

POUR METHOD

- Cleaning solution is poured over the attached mop or, where applicable through the holder (Sprint)
- No contamination of cleaning solution
- No spreading of germs
- Simple handling
- Removes the need to dispose of used cleaning solution
- Area-specific dosing

Compatible floor cleaning systems

Twixter 40 cm • Twix 30 cm • Sprint • Clipper • Scandic Mono

Compatible cleaning trolley

Equipe • Shopster • Variant • AquvaVIZ

DRY CLEANING

- Effective removal of loose dirt and dust
- Ideal for pre-cleaning or for polished or coated floor coverings
- No need to use cleaning solution
- Dirt is bound to the fibres

Compatible floor cleaning systems

Twixter 40 cm • Twix 30 cm • Sprint • Scandic Mono • Scandic Duo • Damp mop

Compatible cleaning trolley

Equipe • Shopster • Variant • AquvaVIZ

SPRAY METHOD

- Ideal for removing spot soiling
- Suitable for cleaning stairs
- Distribution of cleaning solutions through pump atomizer
- No direct skin contact with the cleaning solution
- No contamination of cleaning solution
- Removes the need to dispose of used cleaning solution

Compatible floor cleaning systems

Twixter 40 cm • Twix 30 cm • Sprint • Clipper • Damp mop

Compatible cleaning trolley

Equipe • Shopster • Variant • AquvaVIZ

TWIXTER-PRESS / TWIX-PRESS

- Suitable for 1-phase wet cleaning
- Wringing without removing the mop from the holder
- No direct skin contact

Compatible floor cleaning systems

Twixter 40 cm • Twix 30 cm

Compatible cleaning trolley

Twixter 40 cm: Equipe • Variant • Wet mop trolley
Twix 30 cm: Shopster • Wet mop trolley

F1 FLAT WRINGER

- Suitable for 1-phase wet cleaning
- Made of high-quality stainless steel
- Robust and durable
- Wringing without removing the mop from the holder
- No direct skin contact

Compatible floor cleaning systems

Sprint V

Compatible cleaning trolley

Equipe • Variant • Wet mop trolley

VERTICAL WRINGER VK 4

- Suitable for 1-phase wet cleaning
- Innovative design
- Robust and durable
- Made of high-quality plastic and free of material susceptible to corrosion
- Self-activated wringing through softpoint

Compatible floor cleaning systems

Sprint • Sprint Plus • Clipper • Aquva

Compatible cleaning trolley

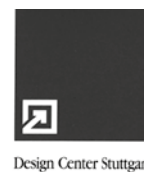

Equipe • Shopster • Variant • Varietta • AquvaVIZ • Mistral • Wet mop trolley

 TOOLS
TWIXTER SYSTEM
(40 CM)

FLOOR CLEANING

The superior concept of the Twixter cleaning system can be applied universally. It offers a functional, ecologically and ergonomically convincing and technically reliable solution for all surfaces. Cleverly-designed right down to the last detail, Twixter optimises your work processes. With the double-sided cover, you can complete wet and dry mopping in just one operation. Every second cover change is cut out; furniture has to be moved just one time. This cuts down on transit time and washing costs.

Q AT A GLANCE

- **Surface coverage 30–40 m²**

Double the coverage of conventional flat mopping systems

- **Best cleaning results**

Clean thanks to intelligent 2-phase cleaning with one mop

- **Saves time and costs**

With the double-sided mop, every second mop change is cut out

- **Ergonomic**

All work steps are carried out standing upright

- **Safety for daily cleaning**

Wet and dry mopping in one work step

- **Particularly practical**

Greatest possible manoeuvrability thanks to double joint attached to the side

AREAS OF APPLICATION

- General cleaning
- Disinfectant cleaning
- 1-phase and 2-phase cleaning
- Medium dirt levels

SITE

Hospital / Nursing home • Office / Administration • Large areas (Airport, Exhibition)

 TOOLS
TWIX SYSTEM
(30 CM)

FLOOR CLEANING

For small, heavily-furnished areas in particular, VERMOP has launched the double-sided mop system with a reduced working width of 30 cm. The Twix 30 cm holder features all the advantages of the large version such as no-touch rinsing, wringing and discarding of the mop.

With Twix, floor cleaning is made easy and simple. The compact, practical holder glides over the floor and reaches easily into corners and crevices. Small and heavily-furnished areas such as shops, toilet facilities or kitchenettes can be cleaned quickly and effortlessly. In combination with the wide range of covers for different types of floor, Twix 30 cm guarantees outstanding cleaning results.

Q AT A GLANCE

TOOLS

SPRINT SYSTEM

FLOOR CLEANING

The generation Sprint V flat mop holder guarantees dual time saving for daily use. Your cleaning staff can attach mops faster than ever before; thanks to the holder's V shape, it slips smoothly into the pouches of the mop. A further benefit is that new staff do not have to be trained specially! The holder also contributes to greater square meter coverage in premises cleaning as it is particularly light and manoeuvrable and allows a speedy mopping process, even in heavily-furnished areas. Furthermore, with the Sprint V holder, you are also investing into your staff's back health.

The holder is opened via a hand switch while the operator remains in an upright position and the mop is discarded hygienically without having to be touched. Bending down to lift up dirty mops is no longer necessary! Of course you can also have complete confidence in the cleaning performance of the Sprint V. The optimised contact surface of the holder ensures even mopping and very good dirt removal.

Combine the Sprint V with the versatile and durable VERMOP Sprint flat mop and the Scandic X telescopic handle for the right working height.

Q AT A GLANCE

- **Simple attachment**

Easy insertion of the holder into the pouches of the mop thanks to the V shape

- **Ergonomic working**

Hand-switch opening of the holder and mop discarding while standing upright

- **Hygienic**

No touching of soiled mops when discarding

- **Spotless cleaning results**

Optimum contact of the holder for very good dirt removal

- **Fast, labour-saving work**

Extremely manoeuvrable and smooth-running holder

AREAS OF APPLICATION

- General cleaning
- Disinfectant cleaning
- Wet cleaning
- High degree of soiling

SITE

Hospital / Nursing home • School / Nursery • Office / Administration • Industry • Hotel

METHODS

F1 flat wringer • Vertical wringer VK 4 • Des tub • Pre-Wash • Dosing sieve • Dry cleaning • Spray method • Pour method

Q AT A GLANCE

- **High cleaning performance**

Ideal for premises with high levels of dirt

- **Hygienic use**

Particularly hygienic as rinsing and wringing all happens without hand contact

TOOLS

SPRINT PLUS SYSTEM

FLOOR CLEANING

With the Sprint Plus System, you wring out your mop without taking it off the holder. Touch-free and therefore particularly hygienic. In addition to the conventional pockets, the Sprint Plus Mop is also equipped with a loop which is threaded into the matching Sprint Plus holder.

AREAS OF APPLICATION

- General cleaning
- Wet cleaning
- High degree of soiling

Q AT A GLANCE

- **Even surface**

Optimum cleaning results thanks to the closed contact surface and even pressure distribution

- **Hygienic use**

Particularly hygienic, as the strap attachment of the mop means there is no hand contact

TOOLS

CLIPPER SYSTEM

FLOOR CLEANING

Clipper is the robust and technically-reliable floor wiping system for general cleaning in heavily-soiled areas. Easy to use and suitable for diverse areas of application, Clipper makes a convincing impact in daily use. The Clipper mops come with straps which are quickly attached to the holder with the functional clamping brackets. For “no-touch” rinsing and wringing out of the mop directly on the holder.

AREAS OF APPLICATION

- General cleaning
- Wet cleaning
- High degree of soiling

Q AT A GLANCE

- **Ideal working width**

The right working width for every area size

- **High coverage**

Time-saving cleaning of large areas with 120 cm working width and the Scandic Cleaning Speed Runner

- **Simple principle**

Simple mop attachment and changing thanks to velcro principle

- **Ergonomic work**

Low holder weight for ergonomic working

TOOLS

SCANDIC MONO SYSTEM

FLOOR CLEANING

Scandic Mono is the functional velcro mop concept for wet, damp and dry floor cleaning. With the light holder in various working widths, it is suitable for a number of purposes from small areas (e.g. areas with lot of furniture) to large surfaces (e.g. in gymnasias, production facilities or large reception areas). Similarly, the Scandic Mono is ideal for cleaning ceilings and walls. Combined with high-quality microfibre covers, the Scandic Mono guarantees optimum cleaning results.

AREAS OF APPLICATION

- General cleaning
- Damp cleaning
- Dry cleaning
- Occasional cleaning
- Low dirt levels

SITE

School / Nursery • Office / Administration • Large areas (Airport, Exhibition) • Small areas (Shop, Doctors' surgeries) • Hotel

METHODS

Dry cleaning • Des tub • Pre-Wash • Dosing sieve • Spray method • Pour method

Q AT A GLANCE

- **High coverage**

Double-sided holder with double the coverage

- **Simple principle**

Simple mop attachment and changing thanks to velcro principle

- **Ergonomic work**

Low holder weight for ergonomic working

- **Environment-friendly dry wiping**

The high-tech microfiber technology saves water and chemicals

TOOLS

SCANDIC DUO SYSTEM

FLOOR CLEANING

Ideal for dry cleaning of all smooth floor surfaces such as laminate, parquet, coated or sealed floors. The dust is bound by the electrostatically charged Ceran Mop without agitating the dust.

The outstanding sliding properties and the high-tech microfibres provide an optimum cleaning result, saving water and cleaning agents at the same time.

AREAS OF APPLICATION

- General cleaning
- Damp cleaning
- Dry cleaning
- Occasional cleaning
- Low dirt levels

FLOOR CLEANING

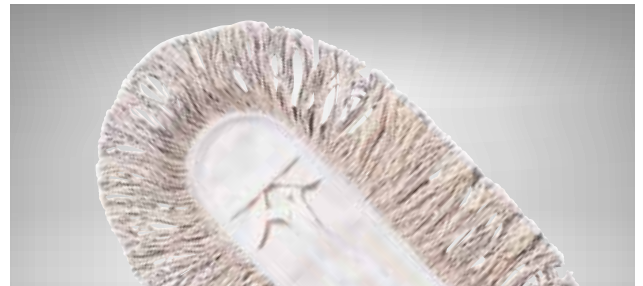

Q AT A GLANCE

- **Wide coverage**

Wide-wipe system with generous working width, ideal for large areas

- **Thorough cleaning**

Thorough cleaning even in corners and along the edges

TOOLS

DAMP MOP SYSTEM

FLOOR CLEANING

The damp mop system is the fast and effective method of hygienically picking up dust, damp or dry. Good gliding properties with low weight and the right holder size for small to large areas ensure optimum cleaning results, even in corners and crevices.

AREAS OF APPLICATION

- Damp cleaning
- Dry cleaning
- Low dirt levels

TOOLS

SCANDIC X SYSTEM

FLOOR CLEANING

The typical cleaning trolley carries numerous pieces of additional cleaning equipment. No norms apply with regards to their attachment to the handle. Various systems make it necessary to carry a range of handles on the trolley. This gives rise to costs, affects the tidy appearance of the trolley and harbours the danger of damage to the premises. With the Scandic X system from VERMOP, these everyday problems are a thing of the past. The Scandic X telescopic handle can be adjusted simply to various working heights, from 80 cm length for mirror cleaning to 171 cm for overhead work.

With the unique Scandic X connector system, all VERMOP appliances, and accessories from all major manufacturers, can be attached to the handle simply and securely. Compactly retracted, it is stored tidily in the Scandic X toolbox. The toolbox offers flexible attachment for all appliances for floor and surface cleaning, and disappears neatly into the Equipe cleaning trolley. Allow yourself to be convinced by a general solution that sets new standards in manual cleaning.

Q AT A GLANCE

- **One for all**

Compatible with all VERMOP cleaning equipment and with numerous appliances from other major manufacturers

- **X-treme**

Simple adjustment to the right working length at the push of a button - from 80 cm to 171 cm

- **Flexible coupling system**

With one click, the appliances can be attached safely and securely

- **Ergonomics**

Simple adjustment without inconvenient twisting

- **Stable and durable**

High quality material for long service life

AREAS OF APPLICATION

- Floor cleaning
- Surface cleaning
- Wall cleaning
- Ceiling cleaning

COMPATIBLE SYSTEMS

- Floor cleaning systems
- Element mop holder
- Brushes and brooms
- TopLock glass cleaning
- Pad holder
- Squeegee

Q AT A GLANCE

▪ Ergonomic work

Ergonomic design for cleaning that takes the pressure of back and joints

▪ Stable setting

Extremely stable thanks to innovative locking mechanism

TOOLS

SCANDIC TELESCOPIC HANDLE

FLOOR CLEANING

The Scandic telescopic handle is distinguished by its ergonomic design. Combined with any of the VERMOP holder systems, the easily adjustable Scandic telescopic handle is always at the most ergonomic working height. The non-slip ball grip - also available as a rotating version – relieves the wrist during the mopping process. A retaining ring serves as a practical and safe support for the user's hand when working overhead.

AREAS OF APPLICATION

- Floor cleaning
- Ceiling und wall cleaning

We recommend the rotating ball version for the Twixter system, the Sprint V system and the Scandic Duo system, the fixed ball version for the Sprint Plus system and for the Scandic Mono system.

SURFACE CLEANING

EFFORT-SAVING CLEANING

The extensive VERMOP cloth range offers ideal solutions for all areas of use.

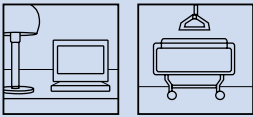

The aim is to ensure simple, labour-saving cleaning with optimised results. In our cloth range, we also emphasise high quality and long service life through careful selection of our raw materials.

BLUE

Application:

General surface cleaning, furniture, office, patient rooms

GREEN

Application:

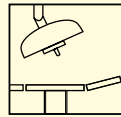

Kitchens

YELLOW

Application:

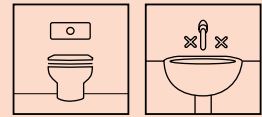

Isolation wards, operating theatres

RED

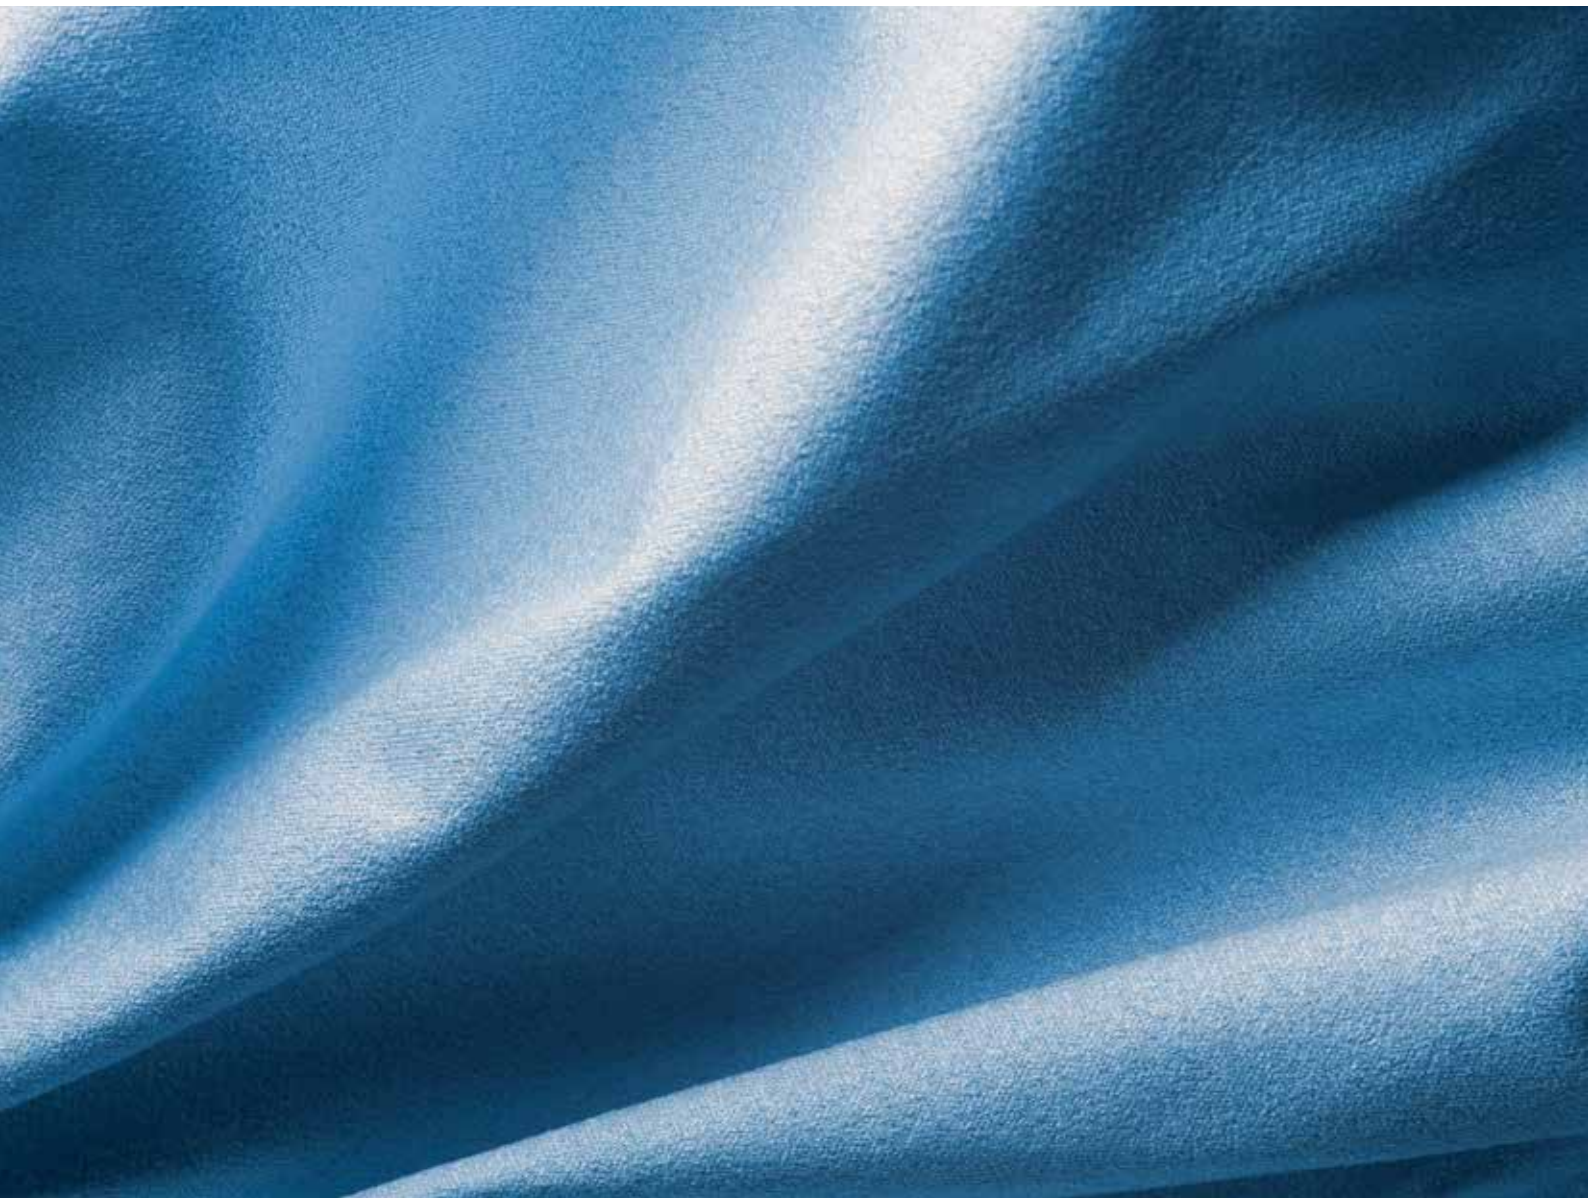

Application:

Toilets, urinals, sanitary surfaces, bath, washbasin, tiles

COLOUR CODING FOR GREATER SECURITY

VERMOP offers a suitable selection of colours for cloths and Tuboxxes for the different areas of surface cleaning. The right cloth for every surface, combined with the right cleaning and disinfection fluid. This prevents damage to the surfaces from using the wrong cleaner and guarantees optimum results. Particularly in hygiene-sensitive areas, the colour-coded cleaning system, combined with the disposal of soiled cloths into the laundry bags after each room, can effectively reduce the risk of germs being spread.

 TOOLS

CLOTH QUALITIES

FOR OPTIMUM RESULTS

With products from the VERMOP cloth range, even the cleaning of demanding and sensitive surfaces is no problem. Selected fibre combinations and manufacturing processes guarantee the best cleaning results on every surface.

TEXTRONIC MICROFIBRE HEAVY-DUTY CLOTH

- Cleaning efficiency tested according to SPC classes by the Fraunhofer IPA Institute
- Very good cleaning performance and gliding properties
- Streak-free sheen for mirrors and chrome

Application

- Ideal for spray cleaning homogenous surfaces
- Suitable for cleanroom use

Material

100 % polyester-microfibre

Care instructions

SOFTTRONIC 1 MICROFIBRE HEAVY-DUTY CLOTH

- Highest cleaning performance
- Due to microfibrils, deep-cleaning even without chemicals
- No separate drying
- Pleasantly pliable

Application

- For dry, damp and wet cleaning of structured surfaces
- Suitable for cleanroom use

Material

75 % polyester-microfibre,
25 % polyamide-microfibre

Care instructions

SOFTTRONIC 2 MICROFIBRE CLEANING CLOTH

Material

75 % polyester-microfibre,
25 % polyamide-microfibre

Care instructions

- Good cleaning performance
- Active cleaning effect due to microfibres
- No separate drying
- Pleasantly pliable

SOFTY MICROFIBRE CLOTH

Material

80 % polyester microfibre,
20 % polyamide microfibre

Care instructions

- Ideal for moist use
- Good cleaning performance and gliding properties
- Active cleaning thanks to microfibres
- Streak-free cleaning without separate drying

PROGRESSIVE MICROFIBRE CLOTH

Material

80 % polyester microfibre,
20 % polyamide microfibre

Care instructions

- Active cleaning thanks to microfibres
- Good rinsing properties
- Economical alternative

ALL-PURPOSE FLEECE CLOTH

Material

Thermo fleece in 85 % viscose,
15 % polypropylene

Care instructions

- Effective cleaning, simple drying
- Highly absorbent and very durable

LAUNDRY RECOMMENDATIONS

Wash separately. This prevents the various fibre qualities damaging one another. Do not use a fabric softener!

VALUE ADDED PERSPECTIVE

TOPLOCK GLASS CLEANING

The TopLock glass-cleaning system represents the optimum combination cost-effectiveness, quality, ergonomics and functionality. It impresses with innovative technology, perfect workmanship and high-quality material – e.g. profiled aluminium, fibreglass-reinforced plastic and stainless steel.

Closely collaborating with our customers, we constantly work on the advancement and new development of our solutions. Convince yourself of the superior productivity, flexibility and safety features for cleaning glass and smooth surfaces.

T-BAR

With its ergonomic handle, the T-bar is gentle on the thenar. Even with wet hands, unproblematic and secure application is guaranteed.

SQUEEGEE LOCKHEAD

The high quality stainless-steel and non-slip plastic LockHead squeegee, is comfortable to hold. The rails can be changed easily.

GLASSMAN

The Glassman safety scraper with 10cm blade made from Solingen steel is ideally suited for removal of stickers, paint residue and scaling from smooth surfaces.

TELESCOPIC HANDLES

The TopLock telescopic sticks are suitable for all applications, thanks to astonishing flexibility and safety.

 TOOLS

T-BAR

GLASS CLEANING

The TopLock T-bar is perfectly tailored to the LockStrip sleeves. The sleeve fits the T-bar tightly without twisting. The LockStrip sleeve moistens the glass pane evenly and generates a good level of foam. With the T-bar's ergonomic grip, long periods of fatigue-free work are guaranteed. It is optimised to work with the TopLock telescopic sticks and also fits all conventional stick systems.

Q AT A GLANCE

- **Perfect fit**

Long-lasting perfect fit of the LockStrip T-Bar cover

- **Low weight**

For a high level of effectiveness

- **Ergonomic handling**

Protects the thenar with ergonomic handle

- **Secure hold**

Even with wet grip

- **Compatible**

With TopLock and Scandic X telescopic handle

AREAS OF APPLICATION

- Glass panes
- Windows
- Smooth surfaces

SITE

Hospital / Nursing home • School / Nursery • Office / Administration • Industry • Large areas (Airport, Exhibition) • Hotel

Q AT A GLANCE

- **Quick change**

Quick and simple changing of rubber and squeegee with unlock button

- **Ergonomic handling**

Safe working with ergonomic dual component handle

TOOLS

SQUEEGEE LOCKHEAD

GLASS CLEANING

The length of the LockHead squeegee handle is ideally tailored to the interplay of hand anatomy and work movement. For easy, precise and fatigue-free work. Even with wet hands, use is effortless and safe due to the non-slip rubberised handle.

AREAS OF APPLICATION

- Glass panes
- Windows
- Smooth surfaces

TOOLS

TOPLOCK TELESCOPIC HANDLES

GLASS CLEANING

The TopLock telescopic sticks are suitable for every type of application, due to their astonishingly low weight, safety in operation and the numerous different adapters. Their unique locking-system impresses with its simple handling and absolute precision and is also suitable for left-handed users. Even when fully extended, the TopLock telescopic stick is smooth-running and allows precise guiding without wobbling.

The stick can resist even extreme drag and pressure. It is easy to extend and retract and prevents collapsing upon release. Integrated stoppers prevent fingers from getting caught.

VERMOP POWER

Performance is the result of invested time and energy. The solutions offered by the VERMOP Power range help you to make this synergy as efficient as never before.

The latest generation of Jetvac vacuum cleaners convinces through their unique combination of compact construction, superior design and low weight. The cordless Jetvac Accu in particular ensures maximum range of movement and effective use of working time without changing sockets.

Be inspired by superior performance in the name of maximum efficiency!

POWER | JETVAC

 POWER
JETVAC

THE POWER OF INNOVATION

Our vacuum cleaners set standards for innovation and quality. Only proven, high performance, long-life components are used.

All Power products have been developed in collaboration with our customers and together with you continuously improved.

JETVAC WITH CABLE

- low sound level
- integrated traction relief
- HEPA filter
- easy to transport, fits in the Equipe cleaning trolley
- powerful motor
- fulfils the current EU eco-design guideline

JETVAC ACCU

- a rechargeable battery without memory effect
- can be used flexibly without a socket
- low sound level
- high output figures with low weight
- simple battery change for a long range

 POWER

JETVAC WITH CABLE

VACUUM CLEANER

The Jetvac universal vacuum cleaner sets new standards when it comes to innovation and quality. It scores with compact construction and superior design. Weighing just 7.2 kg, it is a lightweight in its class. Three smooth-running castors make this powerhouse mobile and its low centre of gravity ensures it moves along without tipping over. The storage compartment offers room for accessories; the extra-long cable is stored in the practical cable rewind. In addition to this, the Jetvac offers two suction settings.

Q AT A GLANCE

- **Low noise level**

Ideal for daytime cleaning due to low noise level

- **Traction relief**

Prevents the cable being ripped off when pulled too hard

- **HEPA filter**

Ideal for allergy sufferers and for hospital cleaning

- **Transport friendly**

Easy to transport due to compact construction with low weight

- **Powerful motor**

Permanently high suction thanks to the powerful motor

AREAS OF APPLICATION

- General cleaning of textile floor covering
- Dry pre-cleaning of hard floors

SITE

Office / Administration • Hospital / Nursing home • School / Nursery

Q AT A GLANCE

- **Without memory effect**

Batteries with modern lithium-ion technology

- **Suitable for flexible use**

Even where no power point is available

- **Low noise level**

Ideal for daytime cleaning due to low noise level of 58 dB

- **Powerful motor**

Permanently high suction thanks to the powerful motor

POWER

JETVAC ACCU

VACUUM CLEANER

Be it for train, bus or aircraft cleaning – the Jetvac accu permits mobile cleaning and provides previously unseen freedom of movement when vacuuming. It is the solution in all those places where no power point is available. And in those areas where a cable can be a real stumbling block, the Jetvac accu is ideally suited for daytime cleaning.

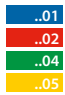

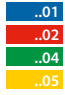

AREAS OF APPLICATION

- Bus / train
- Aeroplane
- General cleaning of textile floor covering
- Dry pre-cleaning of hard floors

VERMOP CONSULTING

ALWAYS A DECISIVE STEP AHEAD

Highest cleaning quality in the light of rising cost pressures: As a competent system provider with decades of experience, we support you throughout the entire process chain so you are always a step ahead of the competition.

We help you to maintain set quality and hygiene requirements, fulfill the respective standards and establish reliable quality assurance processes, at the point of linking service provider and client.

The key factor is always the perfect combination of quality and profitability: Together with you we ensure that you can maximise optimisation and cost reduction potentials in each step of your process.

REDUCE COMPLEXITY – MAXIMISE PROFITABILITY

This is how, we support you along the entire added-value chain:

- recording, documentation and analysis of existing processes
- identification of savings potentials and efficiency gains
- alignment of processes to your strategic corporate objectives
- on this basis: design and implementation of optimised or new processes (incl. employee qualification)

Benefit from our know-how of existing process optimisation, for securing new premises and in the event of necessary restructuring!

CONSULTING

WE GUARANTEE

HIGH LEVEL OF KNOWLEDGE TRANSFER

Thanks to many years of professional experience, familiarity with practice and the constant advanced technical, methodical and communicative qualification of our trainers, we can guarantee a high level of knowledge transfer.

TRANSPARENCY

We constantly monitor our performance by means of participant questionnaires. The feedback round is an established element in every seminar. The data collected is transparent and made available to the client.

QUALITY FROM A TO Z

We look beyond the individual seminar and consider the event as a whole. Therefore every seminar booked includes professional work material, a certificate and internal documentation for the participant.

THE FOCUS IS ON EACH INDIVIDUAL PARTICIPANT

Optimum individual support and the personal success of each participant have the highest priority.

PRACTICAL RELEVANCE AND UP-TO-DATENESS

Because knowledge only makes lasting sense when it is conveyed in such a way that participants can actually apply it.

DISCRETION AND CONFIDENTIALITY

We treat all activities with absolute confidentiality.

THE JOY OF LEARNING

"When something is fun, we take it seriously."
(Gerhard Uhlenbruck)

CONSULTING

OUR LOCATION

Our company's own training and education centre in Wertheim is a modern centre for communication and meeting place. Participants appreciate the pleasant venue and use it for a mutual exchange of experience.

- Bright, light-flooded rooms
- A range of seminar rooms in various sizes, permitting variable arrangements
- Numerous practice areas, such as different floor coverings, glass cleaning, hospital room, etc, for the implementation of theoretical knowledge
- Latest technology (beamer, flipchart, pin boards)
- WiFi allowing free internet use during breaks
- All product systems from the VERMOP range available for viewing, use and testing
- Service: During the seminar, snacks in the communication breaks, lunch and a wide range of hot and cold beverages are included in the price. In the summer months, lunch will be provided in the company's own beer garden located next door.

COMPANY OWN TRAINING CENTRE IN
WERTHEIM
(WERK III, CARL-JAKOB-KOLB-WEG 2)

CONSULTING

INDIVIDUAL CONSULTATION

THE AIM

The aim of a professional consultant is to manage the consultation process to allow the client to recognise new possibilities or pathways and learn how to implement those. In all activities for the client the consultant must be absolutely transparent and comprehensible. The basis for successful consultation depends on client requirements and jointly-defined targets. During each phase, the client needs to have the opportunity to influence future activities flexibly.

THE DUAL CONSULTATION

We see successful consultation as a combination of specialist consulting (conveyance of technical know-how and technical solutions in the premises cleaning, hospital and nursing home hygiene and in the food processing areas) and process consultation (optimisation of internal structures, support for staff reviews, employee motivation, elaboration of personal and organisational optimisation processes, etc.).

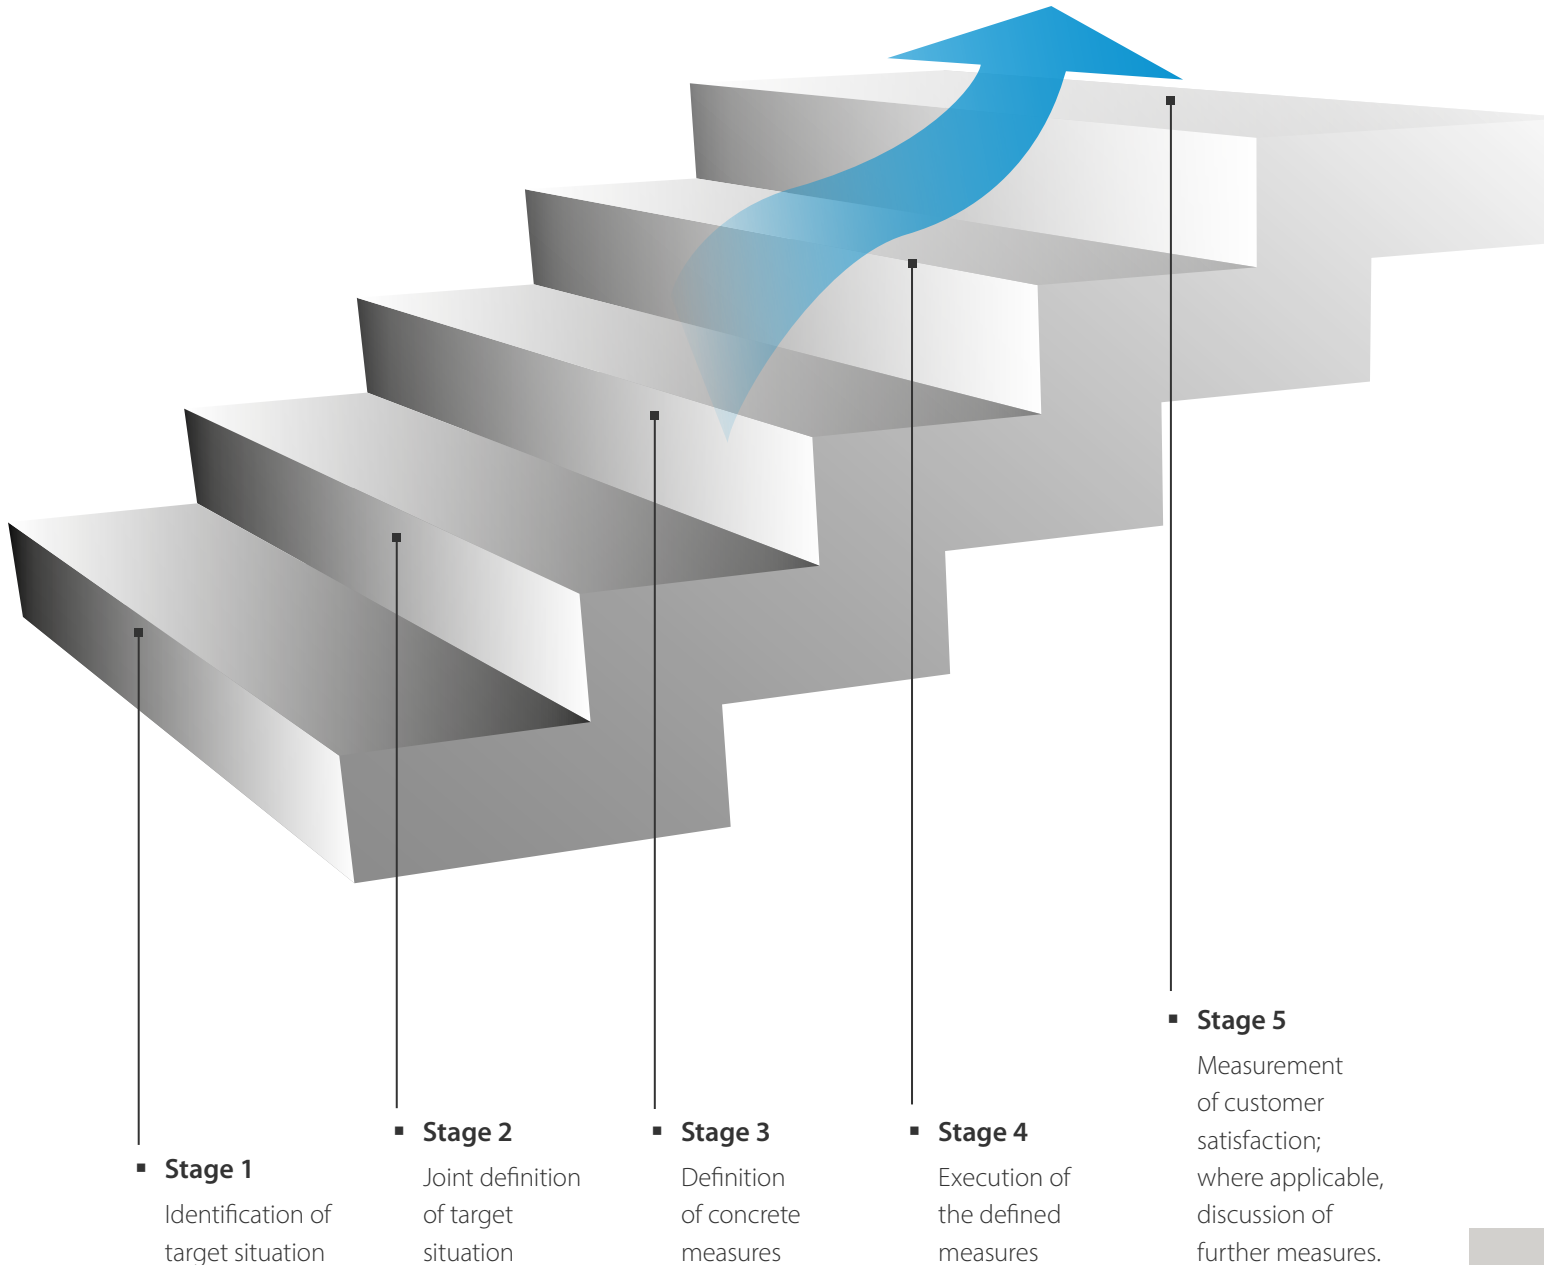

THE APPROACH

We would be pleased to compile an individual training and consultation concept for you, tailored to your requirements. An individual meeting to determine the actual requirements is a key factor. If these cannot be exactly specified we would be pleased to call on you and actively support you with identifying them (basic check).

CONSULTING

INDIVIDUAL SEMINARS AND CONSULTANCY

WE WOULD BE PLEASED TO PUT TOGETHER INDIVIDUAL SEMINARS OR TRAINING COURSES FOR YOU: WITH OUR PROFESSIONAL EXPERTISE, TAILORED TO YOUR REQUIREMENTS AND ON SITE.

YOU CAN OBTAIN FURTHER INFORMATION FROM OUR TEAM:

VERMOP LIQUID

EVERYTHING UNDER ONE ROOF – EVERYTHING FROM A SINGLE CAST

For more than 90 years, VERMOP has been a leading expert for cleaning systems and textiles. Now, we have used this combined know-how to develop an innovative range of professional cleaning chemicals.

Both our customers' wishes and also our profound cleaning knowledge are directly included in the development. That means, each of our products is perfectly matched to your cleaning requirements – and to the fibre qualities of our cleaning textiles.

PRECISELY YOUR CHOICE

You not only have a choice between cleaning agents for various areas of application: alongside our standard products, we also offer you natural cleaning agents, which achieve impressive cleaning results although without fossil raw material ingredients.

A particular highlight: On request, we develop your own customised products, tailored to your requirements.

Secure your leadership right down the line – and increase quality and cost-efficiency, also when it comes to your cleaning chemicals!

Q AT A GLANCE

- **Simple and logical dosing**

Innovative dosing insert for the VERMOP 1 litre-bottle; tip once and 10 ml are dispensed; for medium-range or heavier soiling, simply tip twice or three times!

- **Effective formulae**

Powerful, fast and environmentally safe with a high level of material compatibility

- **Safe application**

Due to its triangular form, the VERMOP bottle is easy to hold, securely and safely even with wet gloves

- **Waste reduction**

Ca. 80 % reduction of the volume of waste thanks to foldable refill bag

- **Clear identification**

Simple and easy-to-understand illustration of areas of application, use and dosing thanks to clear pictograms

- **QR code to increase safety at work**

Simply scan QR code and download the EU Safety Data Sheet

LIQUID STANDARD THE POWERFUL CLEANERS

VERMOP Liquid Standard comprises of a range of cleaning agents. They have all been developed in accordance with the latest state of the art in cleaning technology and take current ecological aspects into account

Q AT A GLANCE

- **Products consist of almost 100 % natural sustainable raw materials**
- **Distinguished with the EU Ecolabel**
- **Non-labelled product line for general cleaning**
- **Very good cleaning performance yet very gentle on material**

LIQUID STANDARD THE NATURAL CLEANERS

VERMOP Natur is our range of cleaning agents developed on the basis of sustainable raw materials. It combines sustainability, efficacy and biodegradability and thus supports you in implementing your company's ecological concept. Our VERMOP Natur products are part of a closed cycle beginning and ending with an intact environment. Using almost 100 % sustainable raw materials, we have developed highly-effective cleaning agents which we produce in Germany. We provide you with advice on the environmentally-sound use of our products in daily cleaning. The ultimate step is the absolute biodegradability of the products, thus completing the cycle.

NATUR SANITARY CLEANER

- With citric acid which is among the most widely-used vegetable acids
- Vegetable raw materials are mixed with active microorganisms and citric acid formed through chemical precipitation

For the removal of mineral stains such as lime scaling

NATUR SURFACE CLEANER

- With tensides extracted from coconuts
- Coconut oils are pressed from coconuts and further processed to tensides

For the removal of different forms of stains

NATUR UNIVERSAL CLEANER

- With alcohol produced from wheat
- Grains of wheat are ground and, with the application of heat, enzymatically metabolized and fermented

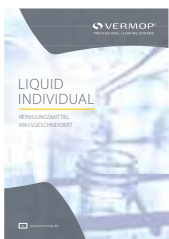

For the removal of fatty stains

LIQUID INDIVIDUAL

THE INDIVIDUAL CLEANER

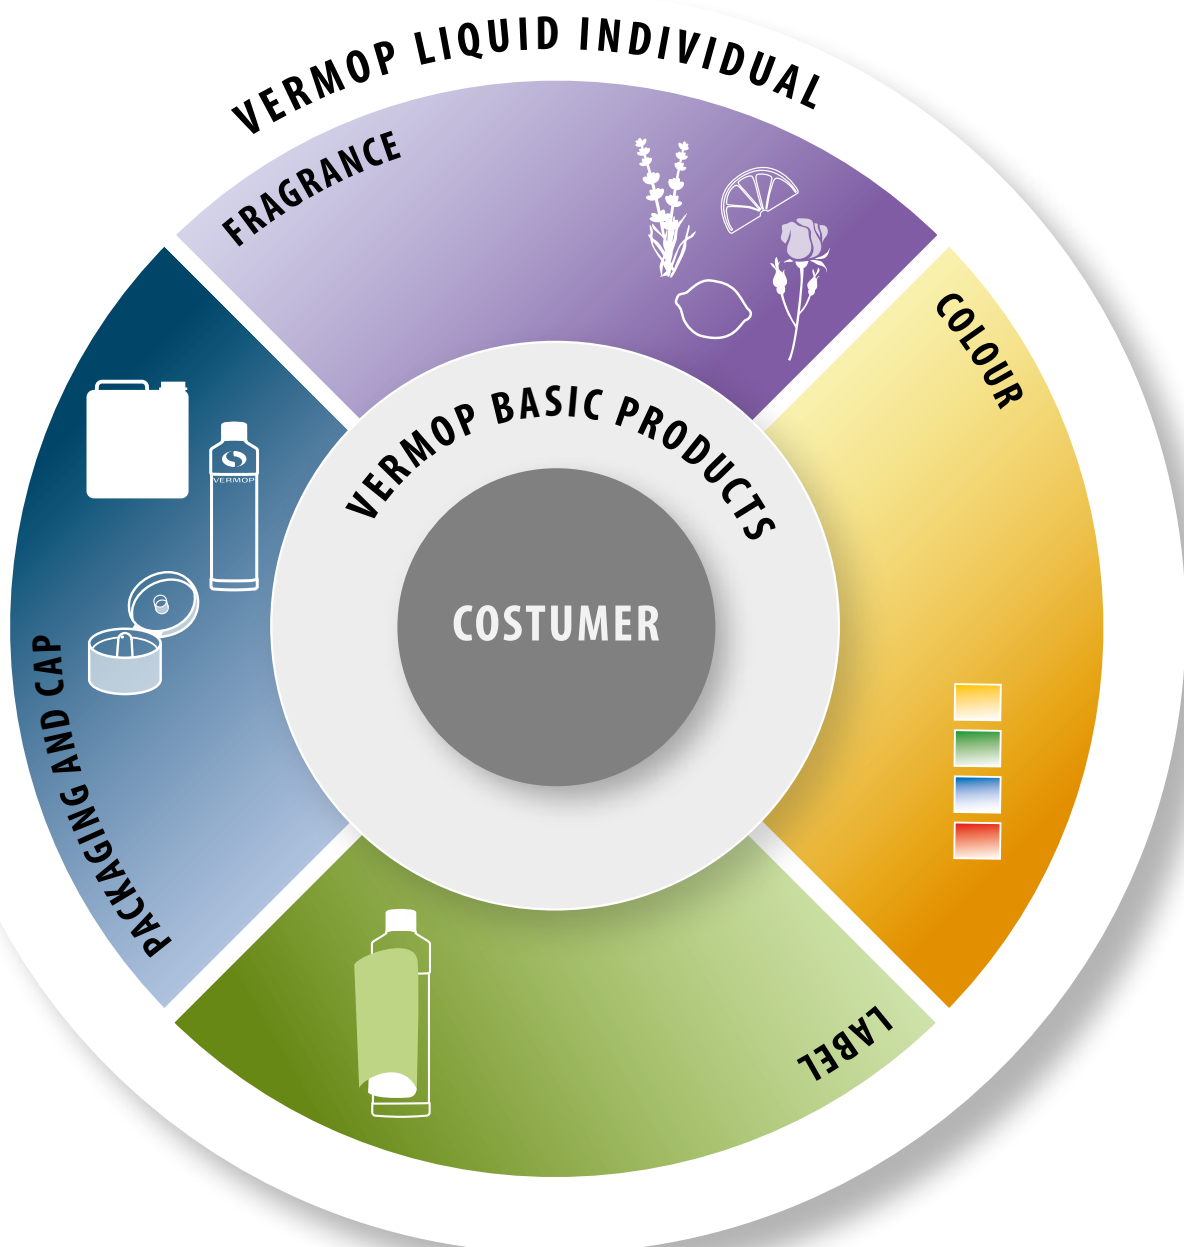

PLEASE REQUEST OUR PRODUCT BROCHURE "LIQUID INDIVIDUAL, TAILORED CLEANING AGENTS" FOR THE COUNTRIES GERMANY, POLAND OR HUNGARY

DEVELOP YOUR OWN PRODUCT!

From a minimum order of 400 l of a product, we offer you the chance to become actively involved in developing your own individual cleaning agent. Drawing on our experience combined with your requirements, we jointly develop a product which represents your company and is specially tailored to your standards, your staff, your premises and your requirements.

DISCOVER THE DIVERSE POSSIBILITIES OF LIQUID INDIVIDUAL

In order to record your individual product-specific wishes in the area of VERMOP Liquid Individual faster and more efficiently, your sales representative is at your disposal. Arrange a meeting to design your own product. We also support you with the documentation of your product.
